

Limestone Learning Foundation

Project Summary Report

School / Site: _____ Principal: _____

Teacher / Applicant of Grant: _____

Project Title: _____ Date: _____

LLF Three Pillars:

- Mentorship – *older students mentoring younger ones; community members mentoring students*
- Sustainability – *creative ways to ensure the project has long-term results*
- Pay It Forward – *building on ideas that can expand and grow into new learning possibilities*

1) What student learning took place?

2) How will this project be sustained in the following year(s)?

3) Provide details of what will happen with the material, equipment, etc. in the following years.

4) Promotion of Project: How did you promote the project progress from start to finish? What social media platforms did you use and how often? (The LLF is very proud of our schools, teachers, students and our collective achievements. As well as celebrating what the students have learned, it is important to promote what we are doing in our schools and share the message with our community. We will use your photos in our e-news blasts, website, Twitter and Instagram accounts. You can simply attach any images and a brief caption as the name of the jpeg with this Project Summary Report.)

5) Budget – How was the grant money spent? A report from your non-Board account should be printed and attached. (Any unspent funds at the end of your project timeframe are to be returned to LLF via a non-board cheque.)

Thank You!
